

job description

Tax Consultant

These are your tasks:

- You will advise our clients on all financial and tax issues and support them with audit procedures.
- You support them in the optimization and implementation of digital financial processes
- You prepare balance sheets, profit and loss accounts, reports and analyze the relevant key figures
- Your clients benefit from the tax strategies you develop
- You coordinate between accounting, payroll accounting, controlling and taxation
- Our employees receive internal training from you and can thus develop themselves further
- A proactive and solution-orientated approach is important to our company - you support this through your work
- You will work on specialist projects and digitalization initiatives to continuously optimize our processes.

This is what you need:

- You have completed the tax consultancy examination
- You are very familiar with IT and your heart beats for digitalization topics
- You think strategically and act with foresight
- You carry out your tasks extremely carefully, with a strong focus on results and high-quality standards
- You value respectful communication with your internal and external customers
- Ongoing training in your specialist area and personal development are important to you.

We offer you:

- We offer you a wide range of tasks with a lot of personal responsibility and ongoing contact with people.
- In our internal TU Academy, you can develop your professional skills and specialize if you wish.
- The balance between working hours and free time is important to us and we support the compatibility of work and private life.
- Our offices are staffed by people who are passionate about their work. They would be delighted if you became part of our team!
- Comprehensive training and our buddy system will help you get started in your new job

Wir schaffen Chancen!
